A new public fishing pier on South Bay and recently renovated pier to renovate at the Palacios Municipal Airport will be open to the public in the coming weeks. The project was approved by the City Council several months ago and is expected to be completed in late November.

The pier, which will be located on the eastern side of the airport, will provide anglers with access to the bay and offer a scenic view of the surrounding area.

In other news, the Palacios Library has received a grant from the Colorado River Authority (CRA) to help fund the expansion of its programming for both adults and children. The $50,000 grant will be used to upgrade the library's mechanical systems and roof, as well as to expand its programming to include more events and programs.

The library also plans to create an ocean-themed space where children can engage, learn and grow. This space will be developed in cooperation with the Friends of the Palacios Library, a local non-profit organization.

The library is also planning to develop an interactive way to use books, as well as to create an exciting space where children can explore and interact with books. The library also plans to implement an ocean-themed space where children can engage, learn and grow.

The new additions will include shelving, book bins and brightly colored chairs and tables for children. The library also plans to implement an ocean-themed space where children can engage, learn and grow.

City refunds over $22k for sewer errors

BY BRANDI GARCIA WEST

Commercial customers in Palacios are the largest recipients of refunds totaling over $22,000. According to Texas Workforce Commission (TWC), 26 commercial customers were refunded over $22k, followed by 35 residential customers. The TWC found that the error was caused by a glitch in the City’s billing system.

Refunds totaling over $22,000 were mailed out to commercial customers in Palacios after a glitch in the City’s billing system led to overcharges. The City of Palacios reported the glitch in their billing system led to overcharges. The City of Palacios has since acknowledged the glitch.

A letter dated Oct. 5 sent out to affected customers stated, "As you are aware, our rates increased this past April and new rates were introduced into our billing system in May. Recently, we found a glitch in our billing system and we are working to correct this glitch. As a result, you are owed a refund for the months of April and May."

Six of the 28 refund recipients were commercial customers with alternate bids two and four in the total number of refunds. The City of Palacios has since acknowledged the glitch in their billing system led to overcharges.
